What is an online statement?
Online statements are electronic versions of the statements you receive in the mail. Online access means that you can view your statements at any time, from any location.

What are the benefits of online statements?
With online statements, you:

- Save time. Online statements are delivered faster than those sent through the mail. An e-mail is sent to you when a new statement is available.
- Save space. Online statements can be saved to your computer and printed only when needed. Gone are the files, drawers, and boxes filled with bank statements!
- Keep your personal information secure. Secure Sign On helps us protect your valuable information including online statements.

What types of accounts are eligible for online statements?
Checking, savings, certificates of deposit, and money market accounts can receive online statements. Our records show that at least one of your account statements is available online.
